DETAILED ACTION

Reasons for Allowance

1. Claims 1-16 are allowed.

2. Examiner's Statement of Reasons for Allowance:

Applicant(s) invention relates to a turbine/alternator, and more specifically, to a control scheme for a turbine/alternator.

The system has a control scheme for a turbine/alternator with an inverter. The control scheme reconfiguring the inverter in order to provide an electric power to a load from the alternator, as required. When self-sustained operation is achieved the electric power is measured and compensation for output voltage fluctuations is achieved.

There are inventions in the field that provide similar functionality and/or have similar features, as prior art of record shows. Applicant(s) invention differs from the prior art of record by the configuration of the control scheme, which was interpreted by the examiner as it is disclosed in the specification and the drawings, which is performing as disclosed and claimed, and which examiner's search failed to find.

It appears that present invention is an improvement over applicant(s)' earlier inventions of the record.

3. Any comments considered necessary by applicant must be submitted no later than the payment of the Issue Fee and, to avoid processing delays, should preferably accompany the Issue Fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Art Unit: 2834
